

# AGAS Vmax

**Based on Revolutionary MRT (Magnetic Resonance Therapy) Technology**

## Features

- **Non-Surgical** aesthetic device for **Facial sculpting, skin firming, fine lines reduction and wrinkles**
- The **MRT™ technology** is scientifically **proven, safe, painless, require no downtime** and deliver effective treatments results
- MRT™ is based on a combination of **magnetic resonance and light therapy** which run simultaneously on one platform
- MRT™ increase skin rejuvenation by **penetrating to the skin at the molecular level (ATP)** – reaching to tissues where **other technologies do not reach**
- One platform can deliver **skin nourishment, skin tightening, Mesotherapy, peeling crystal**
- The light therapy using **LED lights in a different wavelengths** cure and positively affects various skin problems
- **The MRT™ handle**, for Tightening Activated by MRT™ technology that combine with **Magnetic Resonance Therapy and micro current**. Scientifically proved for its ability to cause **facial muscles stimulation to firm and tighten**
- **The MRT™ handle, for Mesotherapy** Activated by MRT™ technology that combine with Magnetic Resonance Therapy and mesotherapy. A safe, natural alternative to invasive cosmetic procedures. The mesotherapy process delivers peptides, vitamins, minerals and amino acids directly into the skin
- **The MRT™ active capsules** - Delivers peptides, vitamins, minerals and amino acids **directly to the deeper layers of the skin**. Argireline peptide for Anti-aging, Vitamin C peptide for Whitening and pigmentation, Hyaluronic Acid decapeptide, Matrix peptide, Vitamin A Peptide
- **The MRT™ mask** Activated by MRT™ technology that combine with **7 different photons for a variety of skin conditions** as Anti-aging, Increases collagen and elastin fibers production, purifies and diminish the P-ACNE bacteria, whitening and uneven skin textures, pigmentation and more
- It also provide **Teeth whitening** which is done by using whitening materials at a concentration of 35% combined with the photon light

### The photon applications

640 nm		<b>Anti-aging, Increases collagen and elastin fibers</b>
320 nm		<b>Disinfection &amp; Antiseptic</b>
420 nm		<b>Kills the P-ACNE bacteria</b>
525 nm		<b>Pigmentation</b>
590 nm		<b>Encourages drainage and detoxification</b>
470 nm		<b>Anti-bacterial properties</b>
560 nm		<b>Skin revitalization</b>
