

REKINDLE

L-Arginine & Lactic acid Peel with modification

New
ArgiGlow
Peel

pH 7.4

Indications:-

Skin rejuvenation & Redefining for Cutaneous surface spots.

Choice for young skin. Perfect peeling for sensitive intolerant, delicate, itchy & reactive skin which do not tolerate other type of action.

Composition:-

30% L-Arginine 5% Niacinamide
20% Lactic acid 2% Acetyl Hexapeptide-49

Application method:-

Apply the peeling with a fan brush to the area to be treated. keep it for 10-30 minutes.

End point:-

Since the peeling is not very aggressive assess the skin tolerance because of its degree of reactive erythema. Remove with cold water before the erythema becomes severe.

Daily Care:- *Apply a non comedogenic moisturizer and sun screen.*

Frequency:-

This treatment should be carried out once a week for 6-8 weeks.
